## Convicted Of Wife Murder

Jury Recommends Sentence Of Life Imprisonment Be Given To Him

## 'ACCIDENT' WAS DEFENSE PLEA

SMETHPORT, Pa., July 26.—Joseph Ferrino, 42, Westline fireman, today stood condemned of the slaying of his wife following the return of a guilty verdict by a jury which recommended he be sentenced to life imprisonment.

Ferrino pleaded the verdict with an expressionless face. Judge Charles Hubbard deferred sentence in order to give the defense attorneys time in which to make the usual motion for appeal.

In charging the jury yesterday, Judge Hubbard said: "The signs of the crime of this verdict, first degree murder, which was the final agreement among them, second degree, or acquittal."

**Claimed Accident**  
All through the trial Ferrino has insisted he shot his wife accidentally while cleaning his gun to go to work, while the prosecution, aided by testimony of the son, Joseph, Jr., 18, insisted the shooting was "deliberate and premeditated murder."

message from Reichsmarschall Adolf Hitler, transmitted in London through his aide Dr. Camp, Capt. Fritz Wiedemann, in which the German dictator asked for a "non-violent solution" of the Sudeten problem.

After a ceremony at the Arc de Triomphe, where he laid a wreath on the tomb of France's unknown soldier, King George and Queen Elizabeth proceeded through jammed streets to the River Seine, where they were by launch to the city hall.

Another immense throng greeted them at the "Hotel de Ville" and heard King George pronounce Anglo-French unity in no uncertain terms, accompanied by an indirect reference to the former common enemy for Germany.

At the door of the old Red City Hall, King George said:

"It is with real emotion that I cross the threshold which for me evokes many memories of our common past."

"My grandfather, Edward VII, came here in 1903 and established in a way the basis for the entente between France and Great Britain."

"My father, George V, came here in April of 1914 to celebrate this entente, which soon afterwards received its baptism of fire."

"Today I have come in my turn, and I must state that this entente has lost nothing of its force and vitality."

Speaking in French, the king asked:

## Underlake Serious Work

While this brilliant pageantry moved on and their British majesties dined at the British embassy, the directors of the two nations' foreign policy dropped out of the parade and each quietly undertook its serious work of the week.

Lord Halifax, it was understood, presented in full detail the discussions he had in London with Hitler's emissary, Capt. Wiedemann.

Some say that Capt. Wiedemann received a private message from Hitler proposing a settlement of the Sudeten question, but at least one account hinted that Wiedemann's mission in London concerned a far wider matter.

## Report \$254 Taken By Sneak Thief

Chief of detectives Ray Showalter and Investigator John Young today were seeking a sneak thief who was alleged to have stolen \$254.00, cash and about \$700.00 worth of checks from the Household Finance corporation.

According to W. A. Felt, manager of the finance corporation which is located in the Union Trust company building, the \$254.00 and checks were stolen from a drawer of a desk located in one of the corporation's inner offices.

The checks were found in the men's restroom at the New Castle Dry Goods store, according to a police report.

can democracy and world peace." He compared the eight-year struggle of the American colonies for their independence with the present conflict in the Far East.

He condemned Japanese invasion of China as a violation of the Kellogg-Briand pact which provides for peaceful settlement of international disputes. "China is fighting for her national independence," said he. Dr. Su charged the United States with her responsibility in applying moral and economic measures to stop the war from spreading.

Preceding the speaking program an organ recital was presented by Miss Helen Ewing. Others for the evening were Edwin Cannan, James Hockley, Jack Higgins, Steven Cunningham, John Thompson, Jack Gannon, Walter Triplett and Warren Bunker.

At 8:30 p. m. the speaker was honored at an informal dinner in the Green room of the Y. W. C. A. Guests included a few people from Pittsburgh and the following from New Castle: Dr. C. B. Winkler, Mr. and Mrs. Clyde Gillilan, Mrs. William Gosel, Dr. and Mrs. John McElhan, Mr. and Mrs. Charles A. McKee, Dr. Mildred Roberts, Miss Rebecca Browne, Miss Margaret D. White, Mrs. Dufr. during the Moody and Sankey meetings. This week a celebration in honor of his birth, July 29, 1839, was held at Rome, Pa., and nearly 12,000 persons attended. We love to honor those who have left the impress of goodness in our hearts.

The corn borer, like the potato bug and the bean beetle, seems to be still with us. A considerable portion of the roasting ears arriving in local markets, give evidence of the depredations of the corn borer. So far the bugologists have not been able to discover any insect or worm with any particular appetite for corn borer, and until the discovery is made, we'll probably have to go on eating corn borer with our roasting ears.

Few people realize the precautions that are taken to insure a good, healthy milk supply. State regulations require that stables be kept clean, and that the cows be regularly tested for tuberculosis. Certain requirements are made of those who milk cows and handle the milk, and there are regulations for pasteurizing it. In New Castle regular tests are made by the health department to ascertain the amount of bacteria in the milk, and if it is found to contain too many the reason is promptly sought. There is a vast difference between the milk sold here now and that of years back thanks to the vigilance of our state and local authorities.

With plenty of home grown vegetables and fruits in the local markets the time of year has arrived when one feels like living to eat. It is true that with our methods of rapid transportation, we can have vegetables at all seasons of the year, but the real home grown kind, raised on the rich soil of Lawrence county, seem to touch the spot better than the imported. Just now we can get home grown potatoes, tomatoes, carrots, onions, lettuce, turnips, peas, beans, spinach and Swiss chard, to say nothing of red and black raspberries, cherries and apples. If you'd ask Pa New, he'd say red raspberries are pretty good too.

## SECOND FOURTH OF JULY DEATH

(Continued From Page One)

FRANKLIN, Pa., July 26.—Venango county's second Fourth of July fatality occurred today with the death in the hospital here of William Harvey, 28, an employee of the Franklin Creek Refining Company, from injuries and burns suffered when a firecracker was tossed into his car by playing boys.

Helen Reily, 25, who was seated in the open car with Harvey, suffered shoulder burns but recovered. Harvey suffered an injury in the artery of his left leg. Two blood transfusions were required and finally the leg was amputated yesterday. Harvey died of shock and blood poisoning.

Camp East Brookers Having Merry Time; Plan Overnight Hike

They are having a great time at Camp East Brook, according to a word of information which came about blowing into New Castle for the past week and for the crowd of girls the days pass by just too rapidly.

Tonight they are going to hike to the Belknap estate, located on a dry bluff some little distance from the camp, and they will sleep out and cook out until tomorrow. Girls who have the shuffles or are otherwise not feeling up to par will remain in the dormitories and sleep in. Tonight will also be a festive occasion because of Virginia Lewis' birthday. The entire camp is prepared to honor this young lady from Pittsburgh on the happy anniversary occasion.

"I haven't made up my mind about anything," he said repeatedly. "There's plenty of time."

The American press completely mystified this ancient town of heavy trenchermen. He achieved all alcoholic beverages and red meats and displayed the taste of an ascetic in choosing the most frugal fare topped off with black tea minus cream or sugar.

Courteous and deferential, he nevertheless maintained a distant attitude toward the twinkling-eyed Irish belles of nobles and Dublin.

Sticks To "Mistake Flight"

He showed a definite interest, however, in tracing his Irish ancestry and welcomed the aid of reporters in attempting to locate the birthplace of his great-grandfather.

After luncheon at the American legation, Corrigan was presented to President Douglas Hyde of Eire at the Vice-Royal Lodge. He was introduced by John D. O'Connell. He asked the story of Corrigan's return in error when he thought he was on his way to Los Angeles and the aged chief executive congratulated him on his courage and initiative.

It was believed Corrigan's plane would be shipped to the United States on a liner leaving Saturday but indications were the flier would remain here for some time.

Walter M. Wiley, 19, pictured at New York police headquarters, and held without bail on a burglary charge, has been questioned in connection with the red circle slaying of Louis Weiss and Frances Hajos, who were shot dead in Weiss's car in Long Island. Circles were drawn with lipstick on the foreheads of the slain pair. Wiley denied knowledge of the slayings.

Frank W. Yingling

Frank W. Yingling, aged 58 years, of 737 Ridge street, died at 11 a. m. today in the New Castle hospital, where he had been admitted on Monday. He had been ill since last March.

Mr. Yingling was born in Minnesota on March 8, 1880, son of M. W. and Mary George Yingling. He came to New Castle 40 years ago and three years later married Effie A. Farrell, who survives. He had been a member of the old Fourth United Presbyterian church. For the past 15 years he had been employed by Reynolds, Sumner and McCann, clothiers.

His wife, the following children, Mrs. Benjamin Wise, Nelson and Elizabeth, of New Castle, and Wanda, a nurse in the Mercer hospital, one grandchild, Ronald Wise, four sisters, Mrs. G. F. Miller and Mrs. Charles Goss of Franklin, Pa., Mrs. Fred Malechowski of Oil City and Effie Yingling of Emlenton, and two brothers, Martin D. and Roy, of Emlenton, survive.

The body will be at the Jos. B. Lodge mortuary until Thursday morning when it will be removed to the residence on Ridge street, where services will be held at 2:30 p. m. Friday. Rev. T. B. Shearer of the Central Christian church, will be in charge. Interment will be made in Oak Park cemetery.

was standing and fell directly in the path of the tractor wheels. The first intimation McCann had of the accident was when he saw his grandchild lying horribly injured at the side of the tractor. McCann ran for help to Squire H. M. Reynolds, nearby, and an ambulance was called.

Mr. Clements was born in Ireland 34 years ago and came to New Castle as a small boy. When the New Castle mill was started he secured employment there and had worked there until last December when he was poisoned.

He is survived by his widow, two daughters, Mrs. Anna Ross of 430 1/2 East Washington street, and Gertrude Clements at home, and three sons, William Clements of Ridge P. O., Clifford Clements of Pittsburgh and Samuel Clements at home. Four grandchildren also survive. Funeral arrangements will be announced later.

## MANY CHARGES ARE PRESENTED BY DR. MORGAN

(Continued From Page One)

Dr. of New Jersey, a member of the committee, asked:

"Dr. Morgan replied, 'I have no test hand knowledge.'"

The deposed chairman also charged many T.V.A. appropriations comprised "a waste of money."

He specifically criticized the soil erosion program and the \$10,000 T.V.A. film, "The River," depicting flood damages.

"I think," Dr. Morgan testified, "soil conservation should be divorced from the T.V.A. It is important but it should stand on its own feet."

"When we first started work on Norris Dam, one of the T.V.A. projects, there were reports from engineers that if soil erosion was not halted Norris Dam would be filled with silt in 100 years. Since then our own investigations have shown at the present rate, Norris Dam will fill up with silt in 4,000 years! So I say today, soil erosion is not a great factor in the T.V.A. basin."

# 'Reckless Walking' Blamed For Pedestrian Fatalities

HARRISBURG, July 29.—A study of 1933 accidents involving pedestrians in Pennsylvania, which showed that 44.6 per cent of the pedestrians killed were paying no attention to traffic, was the result of 270,654 automobile accidents.

The study, which was made by the Pennsylvania State Board of Transportation, showed that 11.6 per cent of the pedestrians killed were under the influence of liquor and were incapable of properly guiding their footsteps.

Of the total number of fatal pedestrian accidents in the five years preceding 1937 it was found that 58.5 per cent resulted from actions on the part of the pedestrian which are considered solely the pedestrian's own responsibility.

These actions include crossing a street without giving proper attention to traffic, walking without consideration of other users of the highway and without regard for one's own safety, as the cause of most pedestrian fatalities.

This theory was born out in the findings of the survey which showed that 44.6 per cent of the pedestrians killed were paying no attention to traffic. Another 11.6 per cent were under the influence of liquor and were incapable of properly guiding their footsteps.

Secretary Boardman, blamed "reckless walking" which he defined as "walking without consideration of other users of the highway and without regard for one's own safety" as the cause of most pedestrian fatalities.

## Auto Inspection Deadline July 31

Only Short Time Remains To Have Auto Inspected In Present Period

(Special To The News)  
HARRISBURG, July 29.—All motor vehicles, trailers and semi-trailers operated in Pennsylvania after midnight of Sunday, July 31, must bear the current silver-backed green and white inspection sticker. Secretary of Revenue J. Griffith Boardman reminded motorists today.

The only classes of vehicles exempted from the inspection requirements are motorcycles, bicycles with motor attached and trailer or semi-trailers having a chassis body weight of less than 1000 pounds.

An amendment to the vehicle code passed at the last session of the legislature provides for fixed semi-annual inspection periods instead of optional periods set by proclamation of the governor. The current inspection period began May 1 and extends, according to law, "until and including the 31st day of July."

Operation of any vehicle without the proper inspection sticker is punishable by a fine of \$10 and costs.

## Remove Over 22,000 Illegal Signs From Highways Of State

Report Is Made By Secretary Of Highways Of Work In Past Six Months

(Special To The News)  
HARRISBURG, July 29.—Secretary of Highways Roy E. Brown, today announced highway department forces removed 22,102 illegal signs from rights-of-way along highways during the first six months of this year.

Illegal signs, as defined by the department are those placed within the legal limits of the state highway's right-of-way without proper permission.

Often these illegal signs," Mr. Brown pointed out, "endanger motorists by obscuring or completely obstructing vision at curves and intersections."

Mr. Brown also reported that 197 speed limit signs were erected near the state lines in accordance with Governor Earle's request. Of this total 155 signs carried the wording "PENNSYLVANIA STATE LINE, SPEED LIMIT 50 MILES, LAW STRICTLY ENFORCED," and the remaining 42 signs worded "COMMONWEALTH OF PENNSYLVANIA, SPEED LIMIT 50 MILES, LAW STRICTLY ENFORCED."

The latter signs could not be erected at the state line, due to the proximity of the municipal boundary lines to the state line.

## STOCKS

Market Advance  
Is Halted Today

Market Rans Into Some  
Profit-Taking. Leaders  
Drop Down Slightly  
At Opening

By LESTER GRUBB  
International News Service  
Financial Writer

NEW YORK, July 20.—The stock market opened with a slight advance today, but the advance was quickly halted by profit-taking. The market was characterized by a general decline in prices, with many stocks dropping significantly. The leading stocks, including the Dow Jones Industrial Average, fell by several points. The market was described as being in a state of "panic" by some observers.

Several factors were cited as contributing to the market's decline. These included a general loss of confidence among investors, a sharp drop in bond prices, and a decline in foreign exchange rates. The market was expected to remain volatile in the near future.

Despite the decline, some sectors of the market showed signs of strength. In particular, the steel and automotive industries were noted for their resilience. However, the overall trend was one of downward movement.
